SONOMA COUNTY'S GOVERNMENT BILL

Was Signed by Governor
Monday and is Now
in Force.

The New Law Provides for Ad-
ditional Deputies in Offices
of County Officials

The new county government bill for Sonoma county, which was fathered in the upper house of the last Legislature by Senator Juilliard and in the lower house by Assemblyman Slater, is now a law. The bill was signed by Governor Johnson last Monday.

The object of the bill was to relieve a number of overworked officials in this county, who have been taxed night and day to keep up with the work in their respective offices, owing to the rapid increase in wealth and population of Sonoma county.

The bill provides for an additional assistant in District Attorney Clarence Lea's office, to which J. W. Ford has been appointed. This appointment will please the people down this way not a little bit, where Jack is best known and much thought of. Mr. Ford has already entered upon his duties and will be a valuable adjunct to the office. Mr. Ford was but recently admitted to practice in the courts of this State and passed his examination with high honors.

Under the bill County Treasurer G. E. Murdock has also been given a deputy. Mr. Murdock has appointed his estimable little wife to the position, which she has been so ably filling for several years. Any compensation whatever from the county.

The other offices affected by the bill are the following: County Assessor Dowd is given additional help in the way of a revenue and taxation deputy. "Hoke" Smith has been advanced to this position and his place of chief deputy has been given to George W. Salisbury. County Auditor Pool is provided with additional help in the shape of a deputy. He has appointed Miss Gladys Locke for the new position

while Miss Florence Lane will continue as stenographer. Changes are also made in the offices of Tax Collector Frank Collins and Recorder Nagle. The former is given an additional deputy from August 1st to January 1st each year.

Picnic and Barbeque at Lawrence Villa Park.

Messrs. Gere & Bruchou, the well-known caterers of San Francisco, who have taken a long lease of Lawrence Villa Park in this city will give a grand annual opening picnic and barbeque at their popular resort on Sunday, May 14, 1911. The gentlemanly proprietors extend a cordial invitation to the general public and their friends in San Francisco, who are legion, to attend. The success of last year's annual opening of Lawrence Villa Park is a guarantee for a splendid time for those who participate this year.

New Ads This Week.

The attention of our readers is called to the new firms which appear in our advertising columns today.

Green, Foster & Lehmann of San Francisco have opened an egg exchange in the Odd Fellows building on Broadway and will pay the highest market price for eggs. This exchange will be conducted on the same principle as similar exchanges in Petaluma and Santa Rosa.

Chas. McDevitt, the well-known electrician has rented the Hotz building on Broadway, where he will take your orders for housewiring and repairing anything in the electrical line. He will also keep on hand electrical supplies of every kind.

F. O. Fredrickson, successor to A. Rudolf, will continue at the old stand in the Poppe building on the east side of the Plaza. In addition to shoe repairing, Mr. Fredrickson, advertises harness repairing.

The Don Theater

The Don Theater will have new pictures nightly, a Saturday matinee and an entire change for Sunday night. The public's attention is drawn to the fact that the first show will commence at 7 p. m. and the second show at 8.30 p. m. Illustrated songs every Saturday and Sunday by Miss Marie Edgar. Admission 10c.

GAINS A PENSION AFTER LONG SERVICE

Well Earned and Deserving Recognition of a
Faithful Employee

M. F. Mullen, the Veteran Rail-
road Man of El Verano, Works
Under Eleven Super-
intendents

Mr. M. F. Mullen, who for twenty years was the Southern Pacific station agent at El Verano, and who completed thirty-seven years of continuous service in the employ of that corporation a short time ago, has been placed on a pension. This decision was reached at a recent meeting of the Southern Pacific's board of pensions held in San Francisco.

Beginning railroad life away back in 1873 as a laborer in the railroad department of the Southern Pacific Company at South Vallejo, Mullen worked under the regimes of the following division of Superintendents in this and Sacramento Valley: A. D. Wilder, J. A. Fillmore, R. H. Pratt, J. B. Wright, J. L. Frazier, James Agler, W. S. Palmer, J. H. Young, W. C. Lawson, W. A. McGovern and W. A. Whitney.

Under the Southern Pacific's pension rules the acceptance of this well-earned benefit does not debar Mr. Mullen from accepting other employment not prejudicial to the company's interests. He will also be entitled to several railway passes annually and will be given orders for employees rate tickets as often as he may desire them.

Mr. Mullen is 57 years old and is one of the few of the old guard who entered the Southern Pacific Company's service in its infancy, when Huntington, Crocker, Stanford and Hopkins were at the helm. He is still in the prime of life and is a long way off from being "osterized". He has a cozy home in El Verano and is now doing service for Uncle Sam as Postmaster of that burg.

Carnegie Library FOR SONOMA.

The efforts of the Woman's Club, aided by the City Trustees, to secure for Sonoma a Carnegie Library building will be crowned with success as the following letter from the great philanthropist will show:

ANDREW CARNEGIE
2d East 91st St.
New York, Apr. 25, 1911
Thos. Brown, Sec'y Sonoma
Public Library Board:

Dear Sir:

Responding to your communication on behalf of Sonoma. If the city agrees by resolution to maintain a Free Public Library at a cost of not less than \$600 a year, and provides a suitable site for the building, Mr. Carnegie will be glad to give Six Thousand Dollars to erect a Free Public Library building for Sonoma.

It should be noted that the amount indicated is to cover the cost of the Library building complete, ready for occupancy and for the purpose intended.

Before any expenditure on building and plans is incurred Mr. Carnegie's approval of proposed plans should be secured, to obtain which please send sketch plans for inspection. Respectfully Yours,

JAS. BERTRAM,
Private Secretary.

Sonoma's eight-acre Plaza, located in the center of the town and faced on four sides by its principal business blocks, will make an ideal site for the Library building. This will eliminate the cost of purchasing a site for the building, which will enable the municipality to comply with Mr. Carnegie's conditions with little or no additional expense to our taxpayers, as the present tax levy for public library purposes comes within a few dollars of securing for Sonoma this substantial gift.

Hay Market is on Downward Grade

Somers & Co., in their report on the condition of the hay market for the week ending May, 2d say: "Receipts of hay for the past week have been materially less than we have received for a long time past, a total of 1750 tons being marketed, which is about 1000 less than the week preceding. In spite of these light receipts, the market does not show any material change, for local trade has been the dullest that has been experienced for a very long period. There has been considerable activity in the country of late on the part of local dealers, some of whom have bought a considerable quantity, especially for this time of year. As the better qualities of hay are rapidly being cleaned up in the storage districts this movement was made to protect their usual trade until new hay is available.

"There is a great deal of talk at present concerning unfavorable crop prospects but we do not believe that the conditions are as many people think. In some districts it is true the crops do not look well, especially the late sown, although it is generally understood that early sown grain is doing quite well. The present cool weather, which is general throughout the great valleys of the State, is working wonders for the crops and even though we do not have any more rain, a continuance of the present weather conditions will be of great benefit. It recalls the conditions two years ago when for a long period we had no rain and there was a cry of calamity, but the cool weather saved the situation and a bountiful crop was harvested in the State."

"The Class" of Sonoma as Revealed In Our Advertising Columns.

The man who is an advertiser is not only a booster for himself but for his town, as the advertising columns of a local paper reflect the business life of the community and furnish a pretty good idea of what modern enjoyments and necessities it offers residents. We have frequent requests for sample copies of the INDEX-TRIBUNE. One interested inquirer into the desirabilities of Sonoma as a residence place, writes that he wants to find out "the class" of our city as revealed in the advertising columns, and he adds "if it is a classy place and up-to-date I may invest out there, as I have been living in the backwoods long enough."

We have sent a copy of a late issue of the INDEX-TRIBUNE to this Michigan man and we believe he will be pleasantly impressed with the outlook.

It is obviously with more assurance that we send him a paper now for the back numbers reveal the painful fact that Sonoma a few years ago had not "arrived." The advertising columns do not bear the earmarks of the town with "class" and the up-to-date town does impress many, though our conservative friends will tell us that Sonoma ever fair with its beautiful scenery and charming climate was always irresistible and need not be modernized to become famous. It cannot help becoming thoroughly up-to-date as it becomes famous, for even the exponents of its beauty and the devotees of its climate do not cherish the idea of simply camping out in rough and ready fashion. They want to really live and their demand for the good things of life, its pleasures and necessities, will be met by the inevitable supply.

It is of what Sonoma has to offer in these directions that the advertising columns tell.

First of all our Michigan friend will find out that we have a good telephone service. Our advertisers give their phone numbers. The "hello girl" here is an established fact.

There is abundant evidence of the splendid water systems Sonoma enjoys.

The subdivision of residence tracts and the real estate business will attract attention, for the reasonable prices will impress when compared with inflated values elsewhere and the shrewd business man will see a big opportunity for ultimate profit.

In the amusement line there appears the two nickelodeons with their amusing every-day diversion while the ads of chaffeurs, garage and automobile, show that the joy rider can be taken care of.

The wife (if the inquirer has one) can see her opportunity in Sonoma to choose her hats and dresses and shoes at one of several attractive stores and if he be a bachelor he can conjure up visions of the up-to-date California girl right in Sonoma where her helmet hat, her dainty pumps, her parasol and embroidered dress are bought at home and make her a joy to the eye as she trips along our streets.

The home in Sonoma can be equipped in the most up-to-date manner from the furniture and hardware stores, which you see advertised. The larder may be well stocked by our grocers, butchers and vegetable men. Friends may be regaled with delicious ice-cream or other refreshments and the fact that there is a brewery among the advertisers will tell our inquiring friend that capital has been invested in Sonoma which shows confidence and faith in the community and is a big factor in attracting other capital.

In case of sickness or misfortune Sonoma gives evidence of fine sanitariums, graduate physicians and specialists, so our modern health restoring facilities are excellent.

We have sanitary vacuum cleaning devices, the city is advertising for bids on its new sewage system. The deadly microbe is to be given short shift in Sonoma.

It is safe to predict that any one perusing the advertising columns of the INDEX-TRIBUNE can get a pretty good idea of the town and can conjure up a likeable picture of himself as a resident of our "classy" precinct.

MOTHERS day on May 14th should appeal to every one as a day of tribute most beautiful of all. Richter has said "Never, never has one forgotten his pure, right-educating mother! On the blue mountains of our dim childhood, toward which we ever turn and look, stand the mothers who marked out to us from thence our life; the most blessed age must be forgotten ere we can forget the warmest heart."

"Why March 4 is Inauguration Day" was the subject of a morning chapel talk given by a principal. It was interesting to note that the chief reason was because this date seldom falls upon Sunday. Only three times during our history has the inauguration date fallen upon that day.

Wealthy Rancher is Soaked in Justice Campbell's Court

Chris. Thompson, a wealthy rancher of this valley, engaged in a scrap with G. Steckmeyer in El Verano last Monday. The latter, being the under dog in the scrimmage, swore out a warrant in Justice Campbell's court in this place the following day, for the arrest of Thompson, charging him with battery. The case was ventilated before his honor Thursday evening and Thompson, who expected at the most to be fined for the offense, was struck almost dumb when he was sentenced to serve thirty days in the county jail. He was given no choice in the matter as the question of a monetary fine was ignored by Justice Campbell. The case may be appealed.

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

SONOMA LOSE TO OAKWOODS

After an Exciting Game the
Oakwoods Won by Score of
4 to 3 Snappy Playing

After what proved to be one
of the hardest fought contests of
the season the "sand hill" kids
from over the bay won the game
played on the ball grounds Sunday
by the score of 4 to 3. The game
was well played and should have
been won by the local club.

The assorted chocolates and
creams were a little too much for
the local men, and our inability
to connect with the dev drops
which "cherry" the bamboo mound
gazeek put over on us and the
three wide swipes that filled the
air with tumult, while "Mighty
Casey" had taken a back seat
and the men on bases allowed to
retire to the dressing room, the
game being a lost one—lost, just
stop and think, by one run.

Seen from a Moving Van by
Dr. Dippy the Baseball Fan

Those who sit on the fence out-
side the grounds, will be charged
twenty-five cents.

Somebody in the grand-stand
said he wondered where all the ball
players by the name of Brown
came from. A little fellow, resem-
bling little Jeff, answered by say-
ing: "I know, they come from the
Brown Mig Co., in San Francisco."

Pope was a little short Sunday,
that's when it came to finding the
second sack.

Al Jansen is certainly there
with the berries, when comes to
twisting his famous "spitulum"
over the pan. Some class, believe
muh!

Dr. Dippy will probably come
down from his retreat to see the
next game.

Chapter of Accidents

Frank Derosa, a seventeen-year-
old lad employed on the Leveroni
ranch, while rounding up the cows
on the place, on Thursday, met
with a serious accident. The horse
he was riding slipped and fell, car-
rying the rider with him, and the
young man's left leg below the
knee was broken by the animal
falling upon it. Derosa's right
thumb was also broken when he
hit the ground. Dr. Hays was
summoned by phone to the young
man's assistance. He set the
broken bones and then removed
his patient to the Broadway sani-
tarium. The young man, whose
parents reside at Black Point, will
be laid up for some time, as both
bones of the leg were broken.

Mrs. Chadwick of San Francisco,
who is spending the summer at
Boyes Springs, met with a pain-
ful accident Tuesday. While de-
scending the stairs of the hotel,
made a misstep and received a fall
which painfully injured the right
ankle. Dr. Thomson was sum-
moned to the lady's aid and at-
tended to her injuries, which
will confine her indoors for some
time.

Sonoma Driving Club

The Sonoma Driving Club at a
meeting held on Friday night of
last week decided to have its race
track put in good shape for a big
race meet to be held under its
auspices on July 4th. It is the in-
tention of the club members, who
are numbered among our leading
citizens, to make the coming race
meet the best ever.

the ranch houses and stealing a
quantity of wine.

Lowell - Weber Nuptials

The wedding of Miss Sophie
Weber and George R. Lowell took
place Sunday at high noon at the
residence of her bride's parents on
First-street West.

The ceremony was performed by
the Rev. A. B. Roberts, pastor of
the Congregational church, in the
presence of relatives and close
friends of the bride and groom.

Promptly at noon to the strains of
Lohengrin's wedding march, play-
ed by Miss Henrietta and Master
Henry Weber on the piano and
violin, the bridal-procession enter-
ed the parlor, which was hand-
somerly decorated with ferns and
smilax, interwoven with roses, and
took their places under the wed-
ding bell, where the vow was taken.

The bride was handsomely attir-
ed in a soft gown of white crepe de
chene over white silk and trimmed
with pearl ornaments. A veil of
white tulle was held in place by a
wreath of orange blossoms and gave
to the bride a charm and beauty
unexcelled. The bridal bou-
quet was of bride's roses and ferns.
She was attended by her sister Miss
Louise Weber who wore a pale blue
figured Marquisette over silk and
carried bride-maid roses.

Mr. Lowell was attended by Mr.
Grover Rubke.

The bride is the daughter of Mr.
and Mrs. H. Weber and is one of
the most popular young ladies of
Sonoma, being a graduate of the
Sonoma Valley Union High School.

The groom is a well known pros-
perous young orchardist and is the
son of Mrs. C. J. Lowell.

The popularity of the young
couple was shown by the many
costly and beautiful gifts they re-
ceived.

After the ceremony the guests,
lead by the bride and groom, enter-
ed the beautifully decorated din-
ing room, where breakfast was
served by the bride's mother, and
the guests made merry showering
the young couple with congrat-
ulations and best wishes until it
was time for their departure.

After their return from the
south they will make their home
in Sonoma, where Mr. Lowell has
built a comfortable little bungalow
on Second-street East.

May their joys be as deep as the
ocean and their sorrows as light as
its foam, is the wish of their many
admiring friends.

Personals

Mrs. I. Breitenbach went up to
Santa Rosa last night to attend
the Rose Carnival.

cisco is visiting relatives in El
Verano.

acted business in San Francisco
Thursday.

The dance held in the assembly
hall of the High school, on Friday
evening of last week, was a
decided success. About thirty
couples were present and enjoyed
dancing until a late hour. Light
refreshments were served during
the evening.

Last evening F. J. Cossey opened
a Skee-ball bowling alley, next
door to the Palace Hotel.

Skee-ball is the very latest style
in bowling and is a suitable game
for ladies as well as gentlemen.
The game has been very popular
wherever Mr. Cossey has introduced
it before, and he expects to have a
long run here.

VINEBURG ECHOES

Mrs. Fred Batto and daughter
Miss Louisa, visited the bay city
on Wednesday last.

Mrs. Thomas Lentz and children
of San Francisco are guests of her
sister, Mrs. E. Forni, at Pleasant
Villa.

His honor the Mayor of Vine-
burg, who has been ailing for the
last few days, we are happy to
state is now on the road to recovery.

Last Sunday was quite a busy
day in Vineburg on account of the
large number of people who
arrived and departed on the two
trains.

A number of mechanics are now
engaged in building cottages and
other buildings on the Hughes
chicken colony near Schellville
and it promises to rival the Hyde-
tract in a short time. This part of
the valley is certainly improving.

Mr. A. C. Lutgens, the well-
known San Francisco architect,
was a visitor here last Sunday, and
in company with Trustee Fred
Batto inspected the work on the
new school house near here and
appeared perfectly satisfied with
the progress of the work.

Quite a number of baseball fans
from here went to Sonoma to see
the game Sunday afternoon. All
think the Sonoma nine was enti-
tled to the game and all speak well
of the good work of "Cap" Johansen
in the box and Ray Poppe behind
the bat. Ali declared it a good
game.

On Saturday last there arrived
at Batto's spur a carload of salt
containing 17 tons of every variety
of salt from the most dainty table
and dairy to the coarser brands.
This we believe was the largest
single consignment ever received
in the valley. Sonoma city firms
purchased the first two tons.

In Sonoma the Mayor, Michael
Cummings,

Who is ready to answer all sum-
mons;
And he always looks neat, when
he is cutting choice meat,
And he sure keeps the meat block
a-buzzing.

The Deputy Sheriff Joe Ryan,
To escape him there's no use of
trying.

If he has a sure cinch,
You be surely will "Pinch"
And there is no use trying to
"buy" him.

Our Marshal, who's front name is
is "Jim,"

Of course he is not very Slim,
He always looks cross if you don't
tie your horse,
But the ladies all seem to like
him.

Jim.

interesting.

THE SOLAR SYSTEM.

Its Flight Through Space Toward the Constellation Lyra.

In what direction are you moving? If you are going toward the Battery you will answer "south;" if up Broadway you will answer "north;" toward the Hudson you will say "west;" and if in the direction of the East river you will reply "east."

These answers might be correct as regards the surface of the earth, but they may be far from answering the question, for the earth is turning eastward at the rate of about a thousand miles an hour, which carries you in that direction very much faster than you can move over the ground.

But that rotating motion, constantly changing your direction in relation to all outside the earth, is quite subordinate to another far more rapid motion that is carrying you and the earth around the sun eastwardly on an entirely different curve at the rate of about nine miles a second, ever changing your direction in relation to the stars in a circular path 279,000,000 miles long.

Yet that isn't a key to your direction, for little you, your tiny earth and your third rate sun, with all of its planets, are traveling as a united group in one direction, differing from all those mentioned. Find the large first magnitude bluish white star Vega, in the constellation of Lyra, and you will be looking in the direction of the flight that our system is taking through space. If you will observe the stars around Vega for a few hundred years you will find that they are apparently slowly separating, while the stars at the opposite pole of the heavens are slowly drawing together. That means we are moving toward Vega and away from the opposite point. This motion is in a circle that cannot be exactly measured, but there is evidence to show that it will require 18,200,000 years for our system to complete it.

Then can you answer, "I am moving toward Vega." Perhaps so, but more likely perhaps not, for it is far from unlikely that you and your solar system, with Vega and all of the galaxy of stars that eye can see on the clearest night, are moving in the same general direction around some great common center yet unknown. Who can tell? No one now, but the possibility is presented to the human mind from what we know of the motions of the great universal clock of space that marks off the seconds of eternity.—New York Herald.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.
